PRAGATHI CIVIL CONSTRUCTION

CIDA GRADE C4 CERTIFIED

OFFICIAL CAPABILITY STATEMENT

PRAGATHI CIVIL CONSTRUCTION

Engineering Sri Lanka's Future with Strength & Integrity

Pragathi Civil Construction (Pragathi Engineers) is a premier CIDA C4 certified engineering contractor based in Kandy, Sri Lanka. With over two decades of technical dedication, we engineer durable highway networks, reinforced concrete bridges, commercial buildings, and municipal water systems—backed by an expansive in-house heavy machinery fleet.

01 / HERITAGE Two Decades of Engineering Trust

Established in **2004** by experienced civil engineering professionals, Pragathi Civil Construction has grown from focused regional contracting into a trusted national partner in highway networks, reinforced concrete bridge crossings, multi-story commercial facilities, and municipal utility works across Sri Lanka.

Our operational model uniquely integrates direct construction contracting with an extensive in-house heavy machinery fleet, direct equipment importation from verified international manufacturers in China and Europe, and material supplies. This self-contained operational capacity guarantees strict cost control, verified material quality, and dependable on-time delivery across every project phase.

02 / PURPOSE Strategic Vision & Mission

Our Vision

To be Sri Lanka's most trusted and innovative civil engineering partner, delivering durable, modern, and value-driven engineering solutions that uplift communities, strengthen transit corridors, and shape a resilient infrastructure future.

Our Mission

To provide high-quality, safe, and cost-effective construction services through skilled engineering teams, transparent project management, and modern heavy machinery—ensuring every project is completed with engineering integrity and lasting value.

03 / PRINCIPLES Core Operating Values

Engineering Quality
Strict adherence to CIDA C4 technical criteria, rigorous lab soil testing, and premium materials.

BOQ Transparency
Clear contractual bills of quantities, certified progress reporting, and honest handover timelines.

Safety & HSE
Zero-compromise occupational safety protocols on every highway and structural job site.

Modern Innovation
Investing in modern heavy equipment imports and digital project management systems.

"From our early beginnings in 2004 to our current islandwide presence, Pragathi has stood for durability, safety, and engineering excellence. Building Sri Lanka's future is our national responsibility."

Krishan Prabath (E.H.K. Prabath)
PRESIDENT & CHIEF EXECUTIVE OFFICER

04 / CAPABILITIES Core Engineering & Construction Divisions

Road Construction & Asphalt Paving

Full-spectrum roadway infrastructure from sub-base stabilization to hot-mix asphalt wearing courses for national highways, provincial links, and municipal roads.

- Asphalt Concrete Macadam Paving ✓
- Sub-base Compaction & Grading ✓
- Road Development Authority (RDA) Standards ✓

Bridge & Structural Engineering

Design-compliant execution of reinforced concrete (RC) bridge decks, deep foundation piers, structural flyovers, and heavy-duty box culverts over river crossings.

- Deep Pier & Abutment Engineering ✓
- Heavy RC Box Culvert Systems ✓
- Hydraulic Flow & Riverbank Defense ✓

Commercial & Residential Buildings

Turnkey construction for commercial plazas, industrial workshops, and luxury residential projects with robust reinforced frames and high architectural specifications.

- Multi-Story Structural Concrete ✓
- High-Yield Steel Framing & Foundations ✓
- Turnkey Finishing & MEP Integration ✓

Water Supply & Drainage Networks

Municipal pipeline excavation, distribution networks, stormwater channelization, underground retaining tanks, and environmental drainage solutions.

- Pressurized Water Main Pipeline Laying ✓
- Precast Culverts & Storm Retaining ✓
- Pressure Hydro-Testing Protocols ✓

Thermoplastic Road Marking & Safety

Hot-applied thermoplastic line marking with drop-on reflective glass beads and cold chlorinated rubber traffic paints complying with British & Sri Lankan standards.

- BS EN 1871 Certification Compliance ✓
- Retroreflectometer Testing at Night ✓
- Highway Safety Barriers & Signage ✓

Machinery Imports & Plant Fleet Hire

Direct OEM import solutions from China, Japan, and Europe. Comprehensive plant hire services (excavators, rollers, pavers) with certified site operators.

- Caterpillar, Sakai, Komatsu Fleet ✓
- Customs Logistics & Clearance Handling ✓
- Dedicated Job-Site Maintenance Support ✓

05 / PORTFOLIO Featured Landmark Engineering Projects

HIGHWAY ENGINEERING

Nawalapitiya – Harangala Road Network

Asphalt paving, gabion retaining walls & slope mitigation in Central Province.

BRIDGES & STRUCTURES

Bridge Construction – Kandy

RC heavy bridge spanning river crossing with reinforced concrete abutments.

HIGHWAY SAFETY

Central Province Thermoplastic Marking

High-reflectivity line marking and road studs across provincial highways.

COMMERCIAL & RESIDENTIAL

Luxury Residential & Pool Complex

Structural concrete frame, deep pool excavation & architectural finishes.

Quality Assurance & Material Testing: All materials undergo standardized laboratory testing including Standard Proctor compaction, 7-day and 28-day concrete cube compressive tests, and bitumen Marshall stability tests under certified CIDA C4 quality inspection protocols.
